

Would you like to catch and use rainwater for more than watering the lawn?

Come learn from experts, professional water chemists who test rainwater every day. Get the facts - put your mind at ease about using rainwater for bathing, washing dishes, laundry and even drinking. Learn how to take a sample, which tests you can order, and how to interpret the report.

When: Saturday, April 28, 9:30 a.m. to 12:30 p.m.

**Where: McKinney Roughs, 1884 Texas Hwy. 71
(9 miles west of Bastrop)**

Cost: \$15 early birds before March 1 - \$20 after

**Speakers: Tess Abbott, Ariana Dean and Susan Benavidez
Environmental Laboratory Services/LCRA**

Colin Evett - Hanna Instruments, USA

The rain harvesting industry is in the business of helping customers harvest and use rainwater for uses that range from gardening to drinking; homeowners, businesses and institutions alike are focused more and more on guaranteeing adequate, clean water for their families, customers and patrons. Join us and host, Texas Water Savers Co., to learn how to meet these goals safely and effectively.
