

The San Antonio Land/Water Sustainability Forum presents:

Low Impact Development Design, Cost & Performance Case Study Workshop

Friday, November 30, 2012

Bury + Partners

**North Texas Land /
Water Sustainability
Forum LID Design
Competition 2012**

**CPS Energy Training Center
4514 Frank Bryant Lane
San Antonio, TX 78220**

Morning Presentation Session

8:00	Breakfast and Meet-n-Greet	
8:30	Welcome	
8:45	Kansas City's Green Solutions Pilot Project: Integrating Stormwater Management and Neighborhood Renewal	David Dods, URS
9:30	Implementing Stormwater Planters	Amy Mitchell, MIG
10:15	Break	
10:30	Curb Cut and Bioswale Case Studies	David Batts, Construction EcoServices
11:15	Porous Surface Case Studies	Michael Barrett, PhD., UT-Austin
Noon - 12:30	Lunch; LID Lessons Learned	Jim Lenhart, Contech

Afternoon Hands-on Session

1:00	Drilling In: Hands-on LID Design Activity	Small Groups
3:00	Break and Review Other Tables' Results	
3:15	Experts' Analysis of Hands-on Results and Compared to Actual Project as Built	Expert Team
4:00	Conclude	

The intent of this workshop is to go beyond the basics of LID and promote a discussion around design, performance, and cost-related elements. The workshop centers upon real projects and case studies, including ones from Texas. Case studies will compare traditional design, cost, and performance to LID.

Seven CE credits will be offered to engineers. Credits for architects and certified floodplain managers are under review. An update will be sent out upon approval.

Register at sa-lidworkshopnov2012.eventbrite.com. \$100 registration fee includes breakfast, lunch, afternoon snack, presentation materials and certificate of completion. Please note that registration closes at 5:00 p.m. on November 27, 2012.

Sponsorship opportunities are available.
