

# The Interfaith Environmental Network of Austin Invites You to Attend our Monthly Symposium

7:00 pm Tuesday, January 8, 2013  
at [St. David's Episcopal Church](#)

This month's presentation:

## **The City Dark**

*Documentary screening & discussion*

*"When you look at the night sky, you realize how small we are."*

Do we need the night sky? Are we less likely to see ourselves as a part of nature and God's Creation if most of us can't see the stars at night? What effect is light pollution having on our ability to hear the call to environmental stewardship?

**The City Dark** -- winner, "Grand Jury Prize, Best Feature," Yale Environmental Film Festival, is an investigation of these questions and more. Join us in viewing this excellent film and exploring related questions Tuesday January 8th. Group discussion led by Texas Interfaith Power and Light's Amanda Yaira Robinson and local clergy. Hope to see you!

**When:** Tue, 1/8/13, 7pm to 8:30pm

**Where:** St. David's Episcopal Church  
301 East 8th Street, 78701 (downtown Austin)  
(512) 610-3500; free parking
