

Children in Nature Collaborative of Austin
presents
Professor Robin S. Moore

Friends:

You may not be familiar with Robin Moore but he's a virtual **rock star** in the world of urban planning and landscape architecture where he's an international leader in designing for **children's play**. He is traveling here, from his home in North Carolina, in early February to work with NWF, Austin Parks and Recreation Department and the LCRA to help design two **natural play areas** here in Central Texas. Our friends at NWF have kindly arranged for him to join our next CINCA meeting, scheduled for February 1, to give a talk on his work! Here's a link to his **bio and his popular blog**: <http://www.naturalearning.org/content/professor-robin-c-moore>

SAVE THE DATE!

Wednesday, February 1st

3 - 5 PM: CINCA Quarterly Meeting
5 - 6 PM: Robin Moore

Emma S. Barrientos Mexican American Cultural Center
