

*You're invited!*

# The Texas Water War

**Is there a solution and who decides?**

***Action Conference***

**Saturday, March 19<sup>th</sup>, 2011, 10 a.m. – 5 p.m.  
McKinney Roughs Nature Center, Cedar Creek, Texas**

- Private interests have been grabbing groundwater for some time.
- Water skirmishes are happening throughout the state, threatening a full-blown water war.
- Your state representatives are doing little to stem the crisis.

The focus of this event is to activate and unify people, organizations and local officials pushing for urban water conservation and for local control of water. ***Please do not wait for this event – contact your legislators now. Ask them for a moratorium on groundwater transfers until the crisis is resolved!***

**Land is worthless without water.  
We cannot let this happen.**

For more information on the status of the current water grab in Bastrop & Lee counties (impacting on the Carrizo-Wilcox Aquifer) please visit: <http://environmental-stewardship.org>.

Host Committee: Environmental Stewardship, Independent Texans, Neighbors for Neighbors & The Texas Drought Project
