

Better Lights for Starry Nights

Learn how to save money, preserve our night skies and enjoy the stars!

Please join the Hill Country Land Trust and Hill Country Alliance

Tuesday • March 26th, 2013 • 7:00 pm (doors open at 6:30)

Hill Country University Center, 2818 E. Hwy 290, Fredericksburg

Fun, Free, Open to the Public

A dark night sky full of big bright stars is important here in the Hill Country, just like clean rivers, scenic vistas and natural landscapes. Little by little, light-by-light, the magical mystery of the big Texas night sky is diminishing. But it's not too late to reverse this trend. You can help!

- Bill Wren of the McDonald Observatory will share his expertise on the value of starry nights and simple strategies to protect the Texas night skies.
- Learn money saving tips - what you can do to "fix" wasteful outdoor lights at your home, ranch, neighborhood and community.
- Sports fields, commercial buildings and schools can be safely and effectively lit in ways that reduce light pollution – find out how.
- The charm of Fredericksburg and surrounding scenic beauty of the Hill Country will be enhanced as our community works together to create starry nights for future generations.
- Learn more about protecting Starry Nights at HillCountryNightSkies.org.
