

# Better Lights for Starry Nights

**Learn how to save money, preserve our night skies and enjoy the stars!**

**Wednesday • March 28th, 2013 • 7:00 pm (doors open at 6:30)**

**LBJ National Park, Johnson City, TX**

**Fun, Free, Open to the Public**

A dark night sky full of big bright stars is important here in the Hill Country, just like clean rivers, scenic vistas and natural landscapes. Little by little, light-by-light, the magical mystery of the big Texas night sky is diminishing. But it's not too late to reverse this trend. You can help!

- Bill Wren of the McDonald Observatory will share his expertise on the value of starry nights and simple strategies to protect the Texas night skies.
- Learn money saving tips - what you can do to "fix" wasteful outdoor lights at your home, ranch, neighborhood and community.
- Sports fields, commercial buildings and schools can be safely and effectively lit in ways that reduce light pollution – find out how.
- The charm of the Hill Country will be enhanced as our community works together to create starry nights for future generations.
