

COFFEE WITH COMMISSIONER KAREN HUBER

10:00 am September 22nd

Please join Commissioner Karen Huber for coffee to talk about the issues that are important to Southwest Travis County.

Concerned about Water Supply?

The recent rains have helped some but we are still suffering from a dangerous water shortage. Rapid Growth in SW Travis County will only increase the demand for water. Whether you depend on ground water or surface water, you will want to hear what Commissioner Huber has to say about how we can protect our future water supply.

Are you prepared for a Wildfire?

A year ago we experienced devastating wildfires in Central Texas and Commissioner Huber immediately responded. She put in place a multi-agency Wildfire Task Force that developed a "Ready-Set-Go" homeowner preparedness plan and other tools for better communications between emergency responders and communities facing a wildfire threat. Learn how these agencies are best prepared to help you in the event of another wildfire in our area and what it means to be prepared.

What other issues are important to you? Transportation? Taxes? Law Enforcement?

Commissioner Huber looks forward to hearing what issues are important to you. Join her for coffee (and other beverages) on Saturday, September 22nd at 10:00A.M.

LOCATION: 13333 W. Highway 71 (This is the "Old Schoolhouse" next to the Bee Cave Police Station. The driveway is on the south side of Highway 71 just 600 feet west of the RR 620 intersection)

Hosted by your neighbors on Hamilton Pool Road
