

Neighbor to Neighbor

www.hillcountryalliance.org

The Mission of the Hill Country Alliance is to bring together an ever-expanding alliance of groups throughout a multi-county region of Central Texas with the long-term objective of preserving open spaces, water supply, water quality and the unique character of the Texas Hill Country.

RECENT NEWS

Lake Travis water treatment facility raises concerns

Lake Travis residents and business owners are supported by the Austin environmental community calling on the City of Austin to hold off plans to draw even more water from Lake Travis until conservation measures are fully implemented. Show up and speak up Thursday (tomorrow). Find out more and get involved [here](#).
[Lake Travis hits 3rd all time lowest level.](#)

Burnet transportation planning meeting tomorrow

Burnet County will be holding a public meeting tomorrow to share information on potential improvements to address traffic needs in the long-range transportation plan for the county. The plan will serve as a guide for transportation planning and investments through the year of 2035. Public input regarding these proposed improvements is welcome. Read more [here](#).

Cypress Creek Project

The spring-fed Cypress Creek and surrounding Hill Country landscape is a unique and cherished natural system located in and around Wimberley, Texas. Learn about what's being done to protect this resource, check out the latest Cypress Creek Project newsletter [here](#).

Will we run dry by 2080?

At the next turn of the century, with the Austin area looking something like today's Houston, Travis County will see a near-tripling in water demand. Williamson and Hays counties will require four or five times as much water as they do now, as our descendants will need water to drink, to bathe and to wash clothes and dishes. Read full Statesman.com article [here](#).

Rainfall patterns at the Fly Gap

After a wet first half of 2007, why did dry conditions return in late 2007 through early 2009? What are our rainfall prospects for the coming year? What are the long-term trends for rainfall in central Texas? How will global warming affect our rainfall patterns? Read full article by David M. Hillis [here](#).

Green power shouldn't be destructive

Commentary by Ruth E. Flournoy

Wind energy might not leave a huge carbon footprint, but it is leaving a deep, industrial footprint on the Texas Hill Country. Because our family wanted to maintain the integrity of Dove Creek Ranch, located on the far western edge of the Hill Country, we refused a lucrative contract to place wind turbines on our property. And now, ironically, the ranch sits squarely in the path of two of three high-voltage power line routes proposed by LCRA, connecting the Twin Buttes Station in Tom Green County with facilities in Kendall County. Read full Statesman.com commentary [here](#).
